

## Reviewer for ECPPhA Accredited Educational Programs

The European Council for Pharmacy Education Accreditation (ECPPhA) is seeking dedicated professionals to serve as reviewers for scientific and educational material for live and future online continuing education events. ECPPhA aims to enhance the quality of pharmacy education in Europe by accrediting high-standard programs for pharmacists, pharmacy technicians, and related healthcare professionals.

### Responsibilities:

- **Review Continuing Pharmacy Education (CPE) and Continuing Professional Development (CPD) activities:** Evaluate educational content for live and online events in compliance with ECPPhA accreditation standards.
- **Assess the quality and relevance of content:** Ensure that learning objectives are clearly defined, materials are scientifically balanced, and programs are free from commercial bias.
- **Provide constructive feedback:** Offer suggestions to improve the educational quality of programs to better address the needs of the pharmacy profession.
- **Collaborate with event organizers:** Communicate with providers to clarify issues, ensure alignment with ECPPhA's high standards, and finalize accredited programs.

### Estimated Workload:

- 3-4 hours per month

### Requirements:

- Expertise in pharmacy, healthcare, or a related field with a strong background in clinical practice or academia.
- Experience in developing or reviewing educational materials for healthcare professionals.
- Commitment to ensuring unbiased, high-quality education for pharmacists and pharmacy technicians.
- Familiarity with adult learning principles and an understanding of accreditation processes is desirable.

**Specializations:** Candidates are encouraged to select 4-5 areas of specialization from ECPPhA's list of recognized specialties.

Please find below, on ANNEX 1, the list of Pharmacy Specialities.

### Recognition and Benefits:

- **Professional Recognition:** ECPPhA will recognize your contributions through certificates and acknowledgments.
- **Networking Opportunities:** Collaborate with an international network of pharmacy professionals and educational providers.
- **Career Development:** Enhance your knowledge and expertise by contributing to the development of cutting-edge educational content.
- Your involvement will directly impact the quality of pharmacy education across Europe, contributing to better healthcare outcomes and the advancement of the profession.

**Application Requirements:** Interested candidates are requested to submit their CV and indicate their chosen areas of specialization. Please send applications and any queries to Pedro da Costa Pereira at [pedro.dacosta.pereira@eahp.eu](mailto:pedro.dacosta.pereira@eahp.eu).

## ANNEX 1

### Pharmacy specialities: ECPHA's platform

- Hospital Pharmacy
- Clinical Pharmacy
